SurgyLift

Patient Transfer System

Supports Entire Patient Journey

Did you know?
OSHA reports that direct and indirect costs associated with back injuries in the healthcare industry are estimated to be $20 billion annually —
SurgyLift helps turn that around.

Lateral Transfer System

Item 780SLPT1

- SurgyLift air-facilitated transfer mattress
- Your go-to simple and affordable solution for transferring and repositioning patients
- Elevating staff safety and patient care with two handles on each side.

Item 780SLPT2

- **Air-Facilitated system** that minimizes physical strain of the OR Team, during patient transfers
- **Single-Use:** prevents cross-contamination
- **SurgyLift Matteress** with three handles on each side to support patient transfer and comes with one body strap
